GLOOMY AND FOLKLORIC: SEVEN SONGS, ONE GRIM STORY

The Trondheim metal outfit BLODTØRST is proud to announce the coming of **DALMUNR**, the follow-up to the 2021 debut album, **FERD**.

The gloomy and folkloric concept EP DALMUNR will be released by the band on digital platforms on JANUARY 13TH 2023.

The EP is once again produced by Per Kristian Grimsland at GRIMSLAND STUDIOS and is guitarist Jørgen Alexandersen's debut on a BLODTØRST release.

With exclusively Norwegian lyrics, DALMUNR sees BLODTØRST pave new roads with seven varied and hard-hitting songs tied into one original, grim, and brutal story, penned by vocalist Mathias J. Rye. On DALMUNR, the band has experimented with ambient sounds, while still distilling their own blend of melodic, blackened extreme metal.

The first and only single **BERAR** from DALMUNR will be available on digital platforms on November 1st, 2022.

BERAR is a pummeling, melodic, blackened banger that will haunt your ears for days.

KOM, FØRSTE NOVEMBER!
